Attention Business Editors:  
Goldstake files report on Kirkland Lake property

Trading Symbol: GXP  
(Toronto Stock Exchange)

TORONTO, April 8 /CNW/ - Goldstake Explorations Inc. is pleased to announce that the National Instrument 43-101 Qualifying Report on its Kirkland Lake, Ontario, Canada (McGarry Township), joint venture property, has been filed on SEDAR under the designation "other".

This report was prepared by Mr. Ernest Gallo, P.Geo., who is the qualified person for this News Release. The report summarizes the previous exploration results for both gold and diamonds, and it makes recommendations for the further exploration on this property of approx. 4000 acres, which lies one mile north of the historic Kerr Addison gold mine.

The report can be reviewed on SEDAR or on Goldstake's website on [www.goldstake.com](http://www.goldstake.com).

Goldstake has the option from Transpacific Resources Inc. to earn a 60% interest by spending 1.5 million dollars on exploration and development over 4 years.
